

## The CHAT Separatism

I believe that the Framers of the Law of our nation were referring to the act of political powers rather than any other separation - "ONE indivisible Nation, was their only intent.

Legislation was separated into **THREE** by the Framers to ensure the limitation of the powers of political parties.

Over time, the elitists of the society has kept political power controlled by only two parties.

The time has come when the wisdom of the Framers has become obvious that the people **MUST** take back governance on our nation. The time has come that **We The People** get involved to return our nation to Constitution compliance. It is time for that **THIRD** legislative body - **The CHECK and BALANCE Party**. The Party of We The People.

As a vigorous patriotic supporter on my Constitution, and my nation, I ask your support and votes so that I can answer God's call to return our nation to it's constitutional American course.

Please VOTE!

Please VOTE for **JIMMY** for **YOUR President 2024**.
